Independent Auditor's Report

To the Honorable Mayor and Members of the City Council City of Marion, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the City of Marion, Iowa, as of and for the year ended June 30, 2016, and the related notes to the financial statements which collectively comprise the City's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

To the Honorable Mayor and Members of the City Council City of Marion, Iowa Page 2

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the City of Marion as of June 30, 2016, and the respective changes in financial position and cash flows, where applicable, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, the schedules of proportionate share of the net pension liability, the schedules of contributions and the schedule of funding progress for the retiree health plan on pages 5 through 12 and 58 through 67 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Marion's basic financial statements. We previously audited, in accordance with the standards referred to in the third paragraph of this report, the financial statements for the nine years ended June 30, 2015 (which are not presented herein) and expressed unmodified opinions on those financial statements. The supplementary information included on pages 68 through 74, including the schedule of expenditures of federal awards required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

To the Honorable Mayor and Members of the City Council City of Marion, Iowa Page 3

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated January 6, 2017 on our consideration of the City of Marion's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City of Marion's internal control over financial reporting and compliance.

HOGAN-HANSEN

Cedar Rapids, Iowa January 6, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Marion, Iowa, we offer readers of the City of Marion's financial statements this narrative and analysis of the financial statements of the City of Marion for the fiscal year ended June 30, 2016. This section should be read in conjunction with the financial statements and the accompanying notes that follow. It should also be noted that the information contained here will provide information on both the governmental operations and the business-type activities of the City.

FINANCIAL HIGHLIGHTS

The assets of the City of Marion's governmental activities exceeded its liabilities at the close of June 30, 2016 by \$174.8 million (net position).

The City's net position for governmental activities increased by \$3.5 million.

At the end of the current fiscal year, unassigned fund balance for the General Fund was \$7 million, or 40.7% of the total General Fund expenditures. For the purpose of these financial statements, the General Fund also includes the Equipment Replacement, Tax Stabilization and Police Retirement Trust and Agency Funds.

Total general obligation debt decreased by \$3,710,000. There were no general obligation notes issued during the year.

USING THIS ANNUAL REPORT

The annual report consists of a series of financial statements and other information, as follows:

Management's discussion and analysis introduces the basic financial statements and provides an analytical overview of the City's financial activities.

Government-wide financial statements consist of a statement of net position and a statement of activities. These provide information about the activities of the City as a whole and presents an overall view of the City's finances.

The fund financial statements tell how governmental services were financed in the short term as well as what remains for future spending. Fund financial statements report the City's operations in more detail than the government-wide financial statements by providing information about the most significant funds.

Notes to the financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.

Required supplementary information further explains and supports the financial statements with a comparison of the City's budget for the year, the City's proportionate share of the net pension liability and related contributions, as well as presenting the schedule of funding progress for the retiree health plan.

Supplementary information provides detailed information about the nonmajor governmental and enterprise funds. In addition, the schedule of expenditures of federal awards provides details of various federal programs benefitting the City.

REPORTING THE CITY'S FINANCIAL ACTIVITIES

Government-Wide Financial Statement

One of the most important questions asked about the City's finances is, "Is the City as a whole better or worse off as a result of the year's activities?" The statement of net position and the statement of activities report information which helps answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting and the economic resources measurement focus, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account, regardless of when cash is received or paid.

The statement of net position presents financial information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Over time, increases or decreases in the City's net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the change occurs, regardless of the timing of related cash flows. Thus, revenue and expenses are reported in this statement for some items that will not result in cash flows until future fiscal periods.

The statement of net position and the statement of activities report three kinds of activities:

- Governmental activities include public safety, public works, culture and recreation, community and
 economic development, general government, debt service and capital projects. Property tax, user
 charges and state and federal grants finance most of these activities.
- Business-type activities include solid waste management collection, the sanitary sewer system, city communication utility and urban forest. These activities are financed primarily by user charges.
- The component units include the activities of the Marion Water Department (Water), the Friends of the Marion Carnegie Library (Friends), the Marion Parks and Recreation Foundation, Inc. (Parks) and the Marion Firefighter's Association (Fire). The City is financially accountable for the component units and has included them in the financial statements and notes, although they are legally separate from the City.

Fund Financial Statements

The City has three kinds of funds:

1. Governmental Funds

Governmental funds account for most of the City's basic services. These focus on how money flows into and out of those funds and the balances at year end that are available for spending. Governmental funds include: (1) the General Fund, (2) the Special Revenue Funds, such as Road Use Tax, Local Option Sales Tax, Tax Increment Financing and the Employee Benefits Fund, (3) the Debt Service Fund, (4) the Capital Projects Funds and (5) the Permanent Fund. These funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund financial statements provide a detailed, short-term view of the City's general governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs.

The required financial statements for governmental funds include a balance sheet and a statement of revenue, expenditures and changes in fund balances.

2. Proprietary Funds

Proprietary funds account for the City's enterprise and internal service funds. The enterprise funds report services for which the City charges customers for the service it provides. The internal service funds are used to account for health insurance and other employee benefits. Proprietary funds are reported in the same way all activities are reported in the statement of net position and the statement of activities. The major difference between the proprietary funds and the business-type activities included in the government-wide statements is the detail and additional information, such as cash flows, provided in the proprietary fund statements. Internal service funds are included in governmental activities in the statement of net position and statement of activities. The enterprise funds include the Sewer Rental Fund and Storm Water Management Fund which are considered to be major funds of the City. The City is responsible for ensuring the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong.

The financial statements required for proprietary funds include a statement of net position, a statement of revenue, expenses and changes in fund net position and a statement of cash flows.

3. Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected on the government-wide financial statements because the resources of these funds are not available to support the City of Marion's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The financial statements required for fiduciary funds include a statement of fiduciary net position and a statement of changes in fiduciary net position.

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of financial position. The analysis that follows focuses on the changes in the net position for governmental and business-type activities.

Net position of governmental activities increased approximately \$3.5 million for the fiscal year 2016. Net position of business-type activities increased approximately \$1.2 million for the fiscal year 2016. The largest portion of the City's net position is invested in capital assets (e.g., land, infrastructure, buildings and equipment), less the related debt. The debt related to the investment in capital assets is liquidated with resources other than capital assets. Restricted net position represents resources subject to external restrictions, constitutional provisions or enabling legislation on how they can be used. Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, legislation or other legal requirements, is approximately \$(0.06) million as of the end of this year for governmental activities and \$7.8 million for business-type activities. The deficit in the governmental activities is due to the recording of the net pension liability.

Governmental Activities

Charges for service make up 5.3% of governmental revenue. Operating and capital grants and contributions, primarily for street projects and building improvement projects, make up another 7.5% of governmental revenue. The remaining revenue comes from primarily property, road use and local option sales taxes.

Business-Type Activities

As expected, charges for service is the primary revenue source for business-type activities. Sanitary sewer, urban forest and solid waste fees are the primary charges for service that make up 98.9% of total revenue. Investment income accounts for an additional 1.1% of total revenue.

INDIVIDUAL MAJOR FUND ANALYSIS

Governmental Fund Highlights

As the City of Marion completed the year, its governmental funds reported a combined fund balance of \$45,553,362 which is less than the \$53,600,428 total fund balance as of June 30, 2015. The following are the major reasons for the changes in fund balances of the major governmental funds from the prior year.

The General Fund showed a decrease in fund balance of \$812,768 from the prior year to \$11,363,957. Revenue increased 2.7% over the prior year to \$14,888,661 and expenditures decreased 3% to \$17,104,799. Net other financing sources totaled \$1,403,370.

The Special Revenue, Road Use Tax Fund is used to account for the maintenance of the City's infrastructure. This fund ended fiscal year 2016 with a balance of \$4,674,646, compared to the prior year ending balance of \$3,805,941.

The Special Revenue, Trust and Agency (Employee Benefits) Fund is required by the Code of Iowa to account for property tax levied for employee benefits. This fund showed a decrease in fund balance of \$274,603 from the prior year to \$813,298.

The Special Revenue, Local Option Sales Tax Fund accounts for revenue from the tax authorized by referendum and used for capital improvements, equipment and community programs and services. This fund ended fiscal year 2016 with a \$5,316,675 balance compared to the prior year ending fund balance of \$3,722,905. Local option sales tax revenue increased \$615,008 in fiscal year 2016.

The Special Revenue, Tax Increment Financing Fund accounts for revenue from the tax authorized by ordinance in the urban renewal district which is used to pay the principal and interest on indebtedness incurred for urban renewal redevelopment projects. This fund ended fiscal year 2016 with a (\$97,615) balance compared to the prior year ending balance of (\$292,716). The deficit fund balance is a result of transfers to other funds to pay urban renewal project debt prior to the collection of tax increment financing revenue.

The Debt Service Fund ended fiscal year 2016 with a \$465,968 balance compared to the prior year ending balance of \$475,661. Property tax revenue increased \$159,887 while bond principal and interest payments decreased \$326,481 in fiscal year 2016.

The Capital Projects Fund ended fiscal year 2016 with a \$22,232,765 balance compared to the prior year ending balance of \$31,768,977.

Proprietary Fund Highlights

The Enterprise, Sewer Rental Fund accounts for the operation and maintenance of the City's sanitary sewer system. This fund ended fiscal year 2016 with a net position of \$17,869,077 compared to the restated prior year ending net position of \$17,033,592.

The Enterprise, Storm Water Management Fund, which accounts for the operation and maintenance of the City's storm water management system, ended fiscal year 2016 with a \$23,919,759 net position balance compared to the restated prior year ending net position balance of \$23,082,170.

Budgetary Highlights

Over the course of the year, the City amended its budget one time. The budgeted disbursements were increased due to TIF payments, equipment, land and right-of-way purchases, payments of accrued leave to employees leaving employment, unplanned equipment repairs, facility planning, census costs, increased project costs and new enterprise resource planning software.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City's capital assets include land, buildings and improvements, equipment, streets, sewer systems, lighting systems, traffic signals and other infrastructure. Capital assets for governmental activities totaled \$194,546,416 (net of accumulated depreciation) as of June 30, 2016. Capital assets for business-type activities totaled \$41,650,668 (net of accumulated depreciation) as of June 30, 2016. See Note 3 to the financial statements for more information about the City's capital assets.

Construction in progress as of June 30, 2016 consists primarily of street projects, sewer projects and the central corridor project.

Long-Term Debt

As of June 30, 2016, the City had \$41,160,626 of outstanding general obligation bonds and notes for governmental activities. See Note 4 to the financial statements for more information about the City's long-term debt.

The City continues to carry a general obligation bond rating of Aa1 assigned by national rating agencies to the City's debt since 2010. The Constitution of the State of Iowa limits the amount of general obligation debt cities can issue to 5% of the assessed value of all taxable property within the City's corporate limits. The City's outstanding general obligation debt is significantly below its constitutional debt limit of approximately \$121 million. Additional information about the City's long-term debt is presented in Note 4 to the financial statements.

ECONOMIC FACTORS

The unemployment rate for Linn County is currently at 4.0%, which is above where it was the previous year at 3.7% and less than the national unemployment rate of 4.9%.

Retail sales are also reported on a fiscal year, April 1 to March 31, basis. For fiscal year 2015, the most recent available (April 1, 2014 to March 31, 2015), retail sales for Marion were \$361.3 million and \$3.814 billion for Linn County. For fiscal year 2014, retail sales were \$351.2 million for Marion and \$3.662 billion for Linn County.

The total value of all building permits for fiscal year 2016 was approximately \$68.7 million, which is down significantly from the fiscal year 2015 amount of \$82.6 million. Building activity continues to remain strong in the Marion area.

NEXT YEAR'S BUDGET AND RATES

The adopted fiscal year 2016-2017 budget calls for an increase in tax receipts of 3.5% and accomplishes all of the Council's long-standing objectives including maintaining the current level of services, maintaining adequate levels of cash reserves and complying with all of the City's financial policies.

Unlike many cities, Marion does not own or operate a wastewater treatment plant. Wastewater treatment is handled through a contract with the City of Cedar Rapids. The City of Marion has been negotiating a new agreement with Cedar Rapids to use a flow-based billing system rather than population-based. The draft budget anticipates that happening in the next fiscal year. A 6.0% overall increase in collections is budgeted. The main reason for this is a budgeted increase in costs to Cedar Rapids in case the adoption of a new agreement is delayed.

Fees are also expected to start the transition from a base fee/usage billing system to a consumption-based system starting in fiscal year 2016-2017. This will equalize residential rates and more accurately bill based on usage. Unlike the current system, it will also reward those that conserve and put less into the system. The new flow-based agreement with Cedar Rapids will ensure that the City sees a reduction in costs as well with lower flows.

The solid waste fee was last increased in January, 2014. The budget proposes increasing the reduced rate by \$0.50/month to \$9.50 while maintaining the current regular rate. When the public service department transitions over to a compressed natural gas fleet, it is anticipated that the fleet will be leased vehicles rather than purchased. This will reduce the annual capital needs in the replacement fund.

The total City tax levy rate for fiscal year 2016-2017 is 13.82107 per taxable valuation compared to 13.58625 for fiscal year 2015-2016. Net taxable valuation for fiscal year 2016-2017 is \$1,396.6 million, which was an increase of \$24 million from the fiscal year 2015-2016 level which was \$1,372.6 million.

FINANCIAL INFORMATION CONTACT

This financial report is designed to present our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and operating activities and to demonstrate the City's accountability. If you have questions about the report or need additional financial information, please contact the Office of the Finance Director at 1225 - 6th Avenue, City Hall, Marion, Iowa 52302.

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Position

As of June 30, 2016

Total Fund Balances for Governmental Funds (Page 16)		\$ 45,553,362
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds. The cost of assets is \$246,893,966 and the accumulated depreciation is \$52,347,550.		194,546,416
Internal service funds are used by management to charge the costs of employee benefits and the partially self-funded insurance plan to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statements of net position.		3,192,341
Accrued interest payable on long-term liabilities is not due and payable in the current year and, therefore, is not reported as a liability in the governmental funds		(122,677)
Pension-related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds, as follows:		
Deferred outflows of resources Deferred inflows of resources	\$ 3,339,071 (1,230,676)	2,108,395
Long-term liabilities are not due and payable in the current year and, therefore, are not reported as liabilities in the governmental funds.		
General obligation bonds Unamortized premium on general obligation bonds General obligation notes Capital lease Compensated absences Nonbonded indebtedness Net pension liability Net OPEB liability	\$ (41,140,000) (676,042) (20,626) (11,415,000) (3,429,641) (167,372) (12,427,657) (1,280,000)	(70,556,338)

Reconciliation of the Statement of Revenue, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities

Change in Fund Balances - Total Governmental Funds (Page 18)	\$ (8,047,066)
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. Capital outlay expenditures and contributed capital assets exceeded depreciation expense in the current year as follows:	
Capital outlay \$ 10,726,377 Contributed capital assets 1,361,208 Depreciation expense (5,744,789)	6,342,796
The net book value of capital assets disposed of during the year	(23,738)
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the statement of activities, interest expense is recognized as interest accrues, regardless of when it is due.	18,179
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of the long-term liabilities is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Current year issuances exceeded repayments as follows:	
Repayment of general obligation bonds\$ 3,710,000Repayment of capital lease235,000Increase in nonbonded indebtedness(25,000)Repayment of general obligation notes41,146Repayment of nonbonded indebtedness25,000	3,986,146
Amortization of premiums on bonds payable does not provide current financial resources to governmental funds but it decreases liabilities in the statement of net position	100,062

Reconciliation of the Statement of Revenue, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities

The current year City employer share of IPERS and MFPRSI contributions is reported as expenditures in the governmental funds, but is reported as a deferred outflow of resources in the statement of net position	\$	1,914,883
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds as follows:		
Compensated absences. \$ (82,626) Pension expense. (1,220,210) Net OPEB liability. (40,000)		(1,342,836)
Internal service funds are used by management to charge the costs of employee benefits and the partially self-funded insurance plan to individual funds. The change in net position of the internal service funds is reported in		
governmental activities in the statement of activities	_	540,45 <u>5</u>
Change in Net Position of Governmental Activities (Page 15)	<u>\$</u>	3,488,881

The City of Marion, Iowa, (City) is a political subdivision of the State of Iowa located in Linn County. It was first incorporated in 1865 and operates under the Home Rule provisions of the Constitution of Iowa. The City operates under the Mayor-Council-Manager form of government with the Mayor and Council Members elected on a nonpartisan basis. The City provides numerous services to citizens including public safety, public works, culture and recreation, community and economic development and general government services. It also provides sewer and sanitation services.

The financial statements of the City of Marion have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board.

Reporting Entity

For financial reporting purposes, the City has included all funds, organizations, agencies, boards, commissions and authorities. The City has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the City are such that exclusion would cause the City's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the City to impose its will on that organization or (2) the potential for the organization to provide specific benefits to or impose specific financial burdens on the City.

These financial statements present the City of Marion (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationship with the City. Certain disclosures about the Marion Water Department (Water) are not included because the component unit has been audited separately and a report has been issued under separate cover. The audited financial statements are available at the City Clerk's office.

Discretely Presented Component Units

The Water Department is presented in a separate column to emphasize that it is legally separate from the City, but is financially accountable to the City. Its relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The Water Department is governed by a five-member board appointed by the City Council and the Water Department's operating budget is subject to the approval of the City Council.

The Friends of Marion Carnegie Library (Friends) is presented in a separate column to emphasize that it is legally separate from the City, but is financially accountable to the City. Its relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. Friends is a nonprofit organization founded to promote the use of the Library and provide financial assistance for various programs. The Organization has a year end of December 31. Accordingly, the Organization's financial information included in the statement of activities and net position is as of and for the year ended December 31, 2015.

The Marion Parks and Recreation Foundation, Inc. (Parks) is presented in a separate column to emphasize that it is legally separate from the City, but is financially accountable to the City. Its relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The Parks Foundation is a nonprofit organization founded to develop parks and recreation facilities within the City and provide financial assistance for various programs. The Parks Foundation has a year end of December 31. Accordingly, the Parks Foundation's financial information included in the statement of activities and net position is as of and for the year ended December 31, 2015.

The Marion Firefighter's Association (Fire) is presented in a separate column to emphasize that it is legally separate from the City, but is financially accountable to the City. Its relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. The Fire association is a nonprofit organization founded to provide a structural way for volunteers and full-time firefighters to coordinate, encourage, promote and participate and to develop and implement programs aimed at meeting the needs of the City. The Fire association has a year end of December 31. Accordingly, the Fire association's financial information included in the statement of activities and net position is as of and for the year ended December 31, 2015.

Jointly Governed Organizations

The City participates in several jointly governed organizations that provide goods or services to the citizenry of the City but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. City officials are members of the following boards and commissions: Iowa League of Cities, Linn County Emergency Management Agency, Marion Economic Development Company (MEDCO) and Regional Planning Commission.

Basis of Presentation

Government-Wide Financial Statements

The statement of net position and the statement of activities report information on all the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which are supported by property tax and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

The statement of net position presents the City's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in the following categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes and other debt attributable to the acquisition, construction or improvement of those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or are imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position not meeting the definition of the preceding categories. Unrestricted net position is often subject to constraints imposed by management which can be removed or modified.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenue. Direct expenses are those clearly identifiable with a specific function. Program revenue includes: (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenue are reported instead as general revenue.

Fund Financial Statements

Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental and enterprise funds and all internal service funds are reported as separate columns in the fund financial statements. All remaining governmental and enterprise funds are aggregated and reported as nonmajor governmental and enterprise funds, respectively.

The City reports the following major governmental funds:

The General Fund is the general operating fund of the City. All general tax revenue from general and emergency levies and other revenue not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs not paid from other funds.

The Special Revenue, Road Use Tax Fund is used to account for the maintenance of the City's infrastructure, such as streets, bridges and storm sewers. The revenue of the Road Use Tax Fund is primarily derived from state taxes. The expenditures primarily relate to the upkeep of the City's infrastructure.

The Special Revenue, Trust and Agency (Employee Benefits) Fund is required by the Code of Iowa to account for property tax levied for employee benefits. This fund either pays benefits as expenditures (primarily police and fire pension costs) or transfers cash to the General Fund to reimburse allowable benefits paid therefrom.

The Special Revenue, Local Option Sales Tax Fund is used to account for the revenue from the tax authorized by referendum and used for capital improvements, equipment and community programs and services.

The Special Revenue, Tax Increment Financing Fund is used to account for revenue from the tax authorized by ordinance in the urban renewal district and used to pay the principal and interest on the general obligation bonds and other indebtedness incurred for urban renewal projects.

The Debt Service Fund is used to account for property tax and other revenue to be used for the payment of interest and principal on the City's general long-term debt.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The City reports the following major proprietary funds:

The Enterprise, Sewer Rental Fund accounts for the operation and maintenance of the City's sanitary sewer system.

The Enterprise, Storm Water Management Fund is used to account for the operation and maintenance of the City's storm water management system.

The City also reports the following additional proprietary funds:

Internal Service Funds are utilized to account for health insurance and other employee benefits provided to other departments on a cost-reimbursement basis.

Additionally, the City reports a trust fund which is used to account for outside donations held by the City as a trustee.

Measurement Focus and Basis of Accounting

The government-wide, proprietary funds and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenue to be available if it is collected within 60 days after year end.

Property tax, local option sales tax, intergovernmental revenue (shared revenue, grants and reimbursements from other governments) and interest are considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when cash is received by the City.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the City's policy is generally to first apply the expenditure toward restricted fund balance and then to less-restrictive classifications — committed, assigned and then unassigned fund balances.

Under terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants and general revenue. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the City's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants and then by general revenue.

Proprietary funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the City's enterprise funds is user fees and charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

The City maintains its financial records on the cash basis. The financial statements of the City are prepared by making memorandum adjusting entries to the cash basis financial records.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Fund Equity The following accounting policies are followed in preparing the financial statements:

Cash and Pooled Investments

The cash balances of most City funds are pooled and invested. Interest earned on investments is recorded in the General Fund, unless otherwise provided by law. Investments are stated at fair value except for the investment in the lowa Public Agency Investment Trust, which is valued at amortized cost and nonnegotiable certificates of deposit, which are stated at cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid (including restricted assets) are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash and, at the day of purchase, have a maturity date no longer than three months.

Property Tax Receivable, Including Tax Increment Financing

Property tax, including tax increment financing, in governmental funds is accounted for using the modified accrual basis of accounting.

Property tax receivable is recognized in these funds on the levy or lien date, which is the date the tax asking is certified by the City to the County Board of Supervisors. Current year property tax receivable represent taxes collected by the County but not remitted to the City as of June 30, 2016 and unpaid taxes. The succeeding year property tax receivable represent taxes certified by the City to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the City is required to certify its budget to the County Auditor by March 15 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the current fiscal year with a 1-1/2% per month penalty for delinquent payments, is based on January 1, 2014 assessed property valuations, is for the tax accrual period July 1, 2015 through June 30, 2016 and reflects tax asking contained in the budget certified to the County Board of Supervisors in March, 2015.

Unbilled Usage

Accounts receivable are recorded in the enterprise funds at the time the service is billed. Unbilled usage for service consumed between periodic scheduled billing dates is estimated and is recognized as revenue in the period in which the service is provided.

Due From and Due to Other Funds

During the course of its operations, the City has numerous transactions between funds. To the extent certain transactions between funds had not been paid or received as of June 30, 2016, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

Due From Other Governments

Due from other governments represents amounts due from the State of Iowa, various shared revenue, grants and reimbursements from other governments.

Inventories

Inventories are valued at cost using the first-in, first-out method. Inventories in the General Fund consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are purchased. Reported inventories in the governmental fund financial statements are equally offset by a fund balance reserve which indicates that they are not available to liquidate current obligations.

Capital Assets

Capital assets, which include property, equipment and vehicles, intangibles and infrastructure assets acquired after July 1, 1980 (e.g. roads, bridges, curbs, gutters, sidewalks and similar items which are immovable and of value only to the City) are reported in the applicable governmental or business-type activities columns in the government-wide statement of net position and in the proprietary funds statement of net position. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. The costs of normal maintenance and repair not adding to the value of the asset or materially extend asset lives are not capitalized. Reportable capital assets are defined by the City as assets with initial, individual costs in excess of \$3,000 for all items except for intangible assets which are \$5,000. The City had no intangible assets as of June 30, 2016.

Capital assets of the City are depreciated/amortized using the straight-line method over the following estimated useful lives.

Asset Class	Estimated Useful Lives
Buildings	40 - 50 Years
Improvements other than buildings	5 - 50 Years
Equipment	2 - 20 Years
Infrastructure (distribution and storm sewer system)	5 - 80 Years
Intangibles	50 Years

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and contributions from the employer after the measurement date but before the end of the employer's reporting period.

Compensated Absences

City employees accumulate a limited amount of earned but unused vacation and sick leave hours and personal leave and compensatory time for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental fund financial statements only for employees that have resigned or retired. The compensated absences liability has been computed based on rates of pay in effect as of June 30, 2016. The compensated absences liability attributable to the governmental activities will be paid primarily by the General, Road Use Tax and Sewer Rental Funds. Also see Note 9.

Long-Term Liabilities

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental or business-type activities column in the statement of net position and the proprietary fund statement of net position.

In the governmental fund financial statements, the face amount of debt issued is reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and the Municipal Fire and Police Retirement System and additions to/deductions from the Systems' fiduciary net position have been determined on the same basis as they are reported by the Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Although certain revenue is measurable, it is not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax and tax increment financing receivable not collected within 60 days after year end.

Deferred inflows of resources in the statement of net position consist of succeeding year property tax and tax increment financing receivable that will not be recognized as revenue until the year for which it is levied and the unamortized portion of the net difference between projected and actual earnings on pension plan investments.

Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

Nonspendable - Amounts which cannot be spent either because they are in a nonspendable form or because they are legally or contractually required to be maintained intact.

Restricted - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or are imposed by law through constitutional provisions or enabling legislation.

Committed - Amounts which can be used only for specific purposes pursuant to constraints formally imposed by the City Council through ordinance or resolution approved prior to year end. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned - Amounts the City Council intends to use for specific purposes.

Unassigned - All amounts not included in the preceding classifications.

Tax Stabilization

The City Council has established the Tax Stabilization Fund to provide a funding mechanism to reduce future property tax impacts. In an unusual budget year, this reserve can be used to smooth spikes in property tax. The Tax Stabilization Fund is presented as part of the General Fund in the financial statements.

Budgets and Budgetary Accounting

The budgetary comparison and related disclosures are reported as required supplementary information. During the year ended June 30, 2016, disbursements did not exceed the amounts budgeted.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(2) Cash and Pooled Investments

Primary Government

The City's deposits as of June 30, 2016 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The City is authorized by statute to invest public funds in obligations of the United States Government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the City Council; prime eligible bankers acceptances; certain high-rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

The City's cash and investments as of June 30, 2016 were as follows:

Cash	\$ 40,913,253
Pooled cash investments - Iowa Public Agency Investment Trust	4,911,489
Money market accounts	307,128
U.S. Instrumentalities	
Original maturities 5 years or less	429
Original maturities 6 to 10 years	49,595
Original maturities 10+ years	12,459,171
Total	\$ 58,641,065

The City uses the fair value hierarchy established by generally accepted accounting principles, based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets. Level 2 inputs are significant other observable inputs. Level 3 inputs are significant unobservable inputs.

The recurring fair value measurement for the U.S. instrumentalities of \$12,509,195 is valued using the last reported sales price at current exchange rates. (Level 1 inputs)

In addition, the City had investments in the Iowa Public Agency Investment Trust (IPAIT) which are valued at an amortized cost of \$4,911,489 pursuant to Rule 2a-7 under the Investment Company Act of 1940. There were no limitations or restrictions on withdrawals for the IPAIT investments. The City's investment in IPAIT is unrated.

The City had no other investments meeting the disclosure requirements of Governmental Accounting Standards Board Statement No. 72.

Interest Rate Risk

The City's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the City.

(2) Cash and Pooled Investments

Credit Risk

The City's U.S. Instrumentalities investments as of June 30, 2016 are rated Aaa or better by Moody's Investors service. The investment in the Iowa Public Agency Investment Trust is unrated.

Discretely Presented Component Units

The Friends of Marion Carnegie Library's investments as of December 31, 2015 consist of mutual funds and other investments with a fair value of \$1,348,438.

The Marion Firefighter's Association's investments as of December 31, 2015 consist of mutual funds and other investments with a fair value of \$921,055.

(3) Capital Assets

Capital assets activity for the year ended June 30, 2016 was as follows:

Primary Government	Balance - Beginning of Year, as Restated (Note 19)	Increases	Decreases	Balance - End of Year

General Obligation Bonds

Eleven issues of unmatured general obligation bonds totaling \$41,140,000 were outstanding as of June 30, 2016. General obligation bonds bear interest at rates ranging from 1.5% to 4% per annum and mature in varying annual amounts ranging from \$100,000 to \$800,000, with the final maturities due in the year ending June 30, 2034.

Details of the City's general obligation bonds payable as of June 30, 2016 are as follows:

	Date of Issue	Interest Rates	Final Due Date	Annual P	ayments	Amount Originally Issued	Outstanding 6-30-16
Governmental Activitie	es						
Corporate purpose	12-15-09	3.00 - 3.13%	6-1-20	\$ 220,000 -	\$ 245,000	\$ 2,120,000	\$ 925,000

2032-2034	2,330,000	<u> 141,150</u>	2,471,150
	\$ 41,140,000	\$ 8,326,428	\$ 49,466,428

General Obligation Notes

Two issues of unmatured general obligation notes totaling \$20,626 were outstanding as of June 30, 2016. General obligation notes bear interest at rates ranging from 4.375% to 5.2% per annum and mature in monthly and annual amounts ranging from \$368 to \$20,258, with the final maturities due in the year ending June 30, 2017.

Details of the City's general obligation notes payable as of June 30, 2016 are as follows:

	Date of Issue	Interest Rates	Final Due Date	Annual Payments	Amount Originally Issued	Outstanding 6-30-16
Government Activiti	ies					
Geo-Thermal note	7-20-06	5.200%	7-1-16	\$ 368	\$ 60,255	\$ 368
Geo-Thermal note	12-28-06	4.375	1-1-17	20,258	285,577	20,258
						\$ 20,626

A summary of the annual general obligation note principal and interest requirements to maturity by year is as follows:

Year Ending June 30,	Principal	Interest	Total
2017	<u>\$ 20,626</u>	<u>\$ 297</u>	<u>\$ 20,923</u>

In August, 2011, the City approved an interfund loan from the Enterprise - Solid Waste Fund to the Special Revenue - Tax Increment Financing (TIF) Fund for an undefined period. This loan was used to fund an economic development incentive payment to the ESCO Group. The City will use TIF funds to repay this loan once the TIF district has the funds. It is estimated the City will begin making repayments beginning in the fiscal year ending June 30, 2018.

Lending Fund	Borrowing Fund	Original Loan	Outstanding 6-30-16
Enterprise - Solid Waste	Special Revenue - Tax Increment Financing	\$ 200,000	\$ 200,000

In March, 2014, the City approved an interfund loan from the Enterprise - Sewer Rent Replacement Fund to the Special Revenue - Tax Increment Financing (TIF) Fund for a period not to exceed ten years at 2.5% annual interest. This loan was used to fund an economic development incentive payment to PDS Investments, LLC. The City will use 50% of the TIF funds from the PDS project to repay this loan beginning in the fiscal year ending June 30, 2017.

Lending Fund	Borrowing Fund	Original Loan	Outstanding 6-30-16
Enterprise - Sewer Rent			
Replacement	Special Revenue - Tax		
·	Increment Financing	\$ 250,000	\$ 250,000

In June, 2014, the City approved an interfund loan from the Enterprise - Sewer Rent Replacement Fund to the Capital Projects Fund for a period not to exceed 20 years at 2.5% annual interest. This loan was used to fund an economic development incentive payment to Capital Commercial Division, LLC. The City will use TIF funds to repay this loan once the TIF district has the funds.

Lending Fund	Borrowing Fund	Original Loan	Outstanding 6-30-16
Enterprise - Sewer Rent Replacement	Capital Projects	\$ 300,000	\$ 300,000

Capital Lease

During the year ended June 30, 2013, the City entered into various agreements to construct a police station containing approximately 45,000 square feet on two floors plus a basement and related facilities and improvements. To finance the construction, the City entered into an agreement to lease land it owns to Bankers Trust Company, NA (Bankers) as trustee, and in turn lease that land back from Bankers for 50 years for the total lease payment of \$1. Bankers subleased the land to V & K Development, LLC to provide for the engineering, design, development, construction, furnishing and equipping of the facility. In November, 2013, the City leased the building from Bankers under a lease purchase agreement being accounted for as a capital lease by the City. The capital lease agreement included interest at 1.15% - 4.15% per annum and requires payments in amounts necessary to repay Bankers for the total proceeds of \$11,650,000 that Bankers obtained by selling certificates of participation in the lease to investors. Once the certificates of participation are repaid, ownership of the building transfers to the City.

The City paid \$397,954 of interest under the capital lease agreement during the year ended June 30, 2016.

The following is a schedule by years of future minimum lease payments on the capital lease obligation:

Year Ending June 30,		
2017	\$	660,251
2018		790,481
2019		816,681
2020		865,806
2021		876,686
2022-2026		4,632,044
2027-2031		5,048,900
2032-2033		2,201,140
Total Minimum Lease Payments	•	15,891,989
Less amount representing interest		(4,476,989)
Present Value of Net Minimum Lease Payments	\$ '	11,415,000

(5) Summary of Nonbonded Indebtedness

During the year ended June 30, 2001, the City entered into an agreement with a donor to pay an annuity of \$25,000 each year for as long as the donor lives in exchange for a gift of 180 acres of land to be used for park purposes. Using an estimated life span based on annuity tables and discounted at the City's estimated incremental borrowing rate of 1.5%, an estimated liability of \$167,372 was calculated. This annuity liability is revalued annually based upon changes in life expectancy and discount rates.

Since the development of this land for park purposes is not expected to be fully completed for many years, the agreement with the donors allows the City to lease this land or any part of it for farming purposes pending full development. In October, 2012, the City entered into a one-year agreement to lease 66 acres of cropland at \$250 per acre per year subject to proportionate reduction as land is developed. In September, 2013, October, 2014 and September, 2015, a one-year extension of the lease was approved.

(6) Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2016 is as follows:

Transfer to	Transfer From	Amount
General	Special Revenue Trust and Agency (Employee Benefits) Local Option Sales Tax Capital Projects Enterprise Urban Forest Utility	\$ 1,429,516 2,100 75,000

		<u>\$11,096,485</u>

Transfers generally move resources from the fund statutorily required to collect the resources to the fund statutorily required to expend the resources.

The City offers City employees the following retirement plans:

IPERS

Plan Description

IPERS membership is mandatory for employees of the City, except for those covered by another retirement system. Employees of the City are provided with pensions through a cost-sharing multiple-employer defined benefit pension plan administered by IPERS. IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive, P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code Chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits

A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, anytime after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. (These qualifications must be met on the member's first month of entitlement to benefits.) Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a regular member's monthly IPERS benefit includes:

- A multiplier (based on years of service).
- The member's highest five-year average salary. (For members with service before June 30, 2012, the highest three-year average salary as of that date will be used if it is greater than the highest five-year average salary.)

Protection occupation members may retire at normal retirement age which is generally at age 55. The formula used to calculate a protection occupation members' monthly IPERS benefit includes:

- 60% of average salary after completion of 22 years of service, plus an additional 1.5% of average salary for years of service greater than 22 but not more than 30 years of service.
- The member's highest three-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25% for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50% for each month that the member receives benefits before age 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July, 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits

A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions

Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. Statute limits the amount rates can increase or decrease each year to one percentage point. IPERS' Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2016, pursuant to the required rate, regular members contributed 5.95% of covered payroll and the City contributed 8.93% for a total rate of 14.88%. Protective occupation members contributed 6.56% of pay and the City contributed 9.84% for a total rate of 16.40%.

The City's contributions to IPERS for the year ended June 30, 2016 were \$642,963.

Net Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2016, the City reported a liability of \$4,885,852 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions to IPERS relative to the contributions of all IPERS participating employers. As of June 30, 2015, the City's proportion was 0.0988942% which was an increase of 0.000212% from its proportion measured as of June 30, 2014.

For the year ended June 30, 2016, the City recognized pension expense of \$486,375. As of June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Οι	Deferred utflows of esources	Infl	ferred ows of ources
Differences between expected and actual experience	\$	73,823	\$	63
Changes of assumptions		134,529		_
Net difference between projected and actual earnings on				
IPERS' investments		_	4	-06,806
Changes in proportion and differences between City				
contributions and proportionate share of contributions		259,588		12
City contributions subsequent to the measurement date		642,963		
Total	\$	1,110,903	\$ 4	06,881

\$642,963 reported as deferred outflows of resources related to pensions resulting from the City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year	End	ing	June	30,	
2017					

2017	\$	(61,641)
2018		(61,641)
2019		(61.641)
2020		239.254
2021		6 728
Total	\$	61.059
I VWI	<u>~</u>	<u> </u>

There were no nonemployer contributing entities at IPERS.

Actuarial Assumptions

The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation (effective June 30, 2014) Salary increases (effective June 30, 2010)	3% per annum. 4% to 17%, average, including inflation. Rates vary by membership group.
Long-term investment rate of return (effective June 30, 1996)	7.5% per annum, compounded annually, net of
Wage growth (effective June 30, 1990)	investment expense, including inflation. 4% per annum, based on 3% inflation assumption and 1.00% real wage inflation.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of actuarial experience studies with dates corresponding to those listed above.

Mortality rates were based on the RP-2000 Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

The long-term expected rate of return on IPERS' investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Core Plus Fixed Income	28%	2.04%
Domestic Equity	24	6.29
International Equity	16	6.75
Private Equity/Debt	11	11.32
Real Estate	8	3.48
Credit Opportunities	5	3.63
U.S. TIPS	5	1.91
Other Real Assets	2	6.24
Cash	<u> </u>	(0.71)
Total	<u>100</u> %	

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and that contributions from the City will be made at contractually required rates, actuarially determined. Based on those assumptions, IPERS' fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on IPERS' investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.5%) or one percentage point higher (8.5%) than the current rate.

	1% Decrease	Discount Rate	1% Increase
	(6.5%)	(7.5%)	(8.5%)
City's proportionate share of the net pension liability	\$ 8,555,776	\$ 4,885,852	\$ 1,788,174

Pension Plan Fiduciary Net Position

Detailed information about IPERS' fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to the Pension Plan

As of June 30, 2016, the City reported no material amounts payable to the defined benefit pension plan for legally required employer contributions or for legally required employee contributions which had been withheld from employee wages but not yet remitted to IPERS.

Municipal Fire and Police Retirement System of Iowa (MFPRSI)

Plan Description

MFPRSI membership is mandatory for fire fighters and police officers covered by the provisions of Chapter 411 of the Code of Iowa. Employees of the City are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by MFPRSI. MFPRSI issues a stand-alone financial report which is available to the public by mail at 7155 Lake Drive, Suite #201, West Des Moines, IA 50266 or at www.mfprsi.org.

MFPRSI benefits are established under Chapter 411 of the Code of Iowa and the administrative rules thereunder. Chapter 411 of the Code of Iowa and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Pension Benefits

Members with four or more years of service are entitled to pension benefits beginning at age 55. Full-service retirement benefits are granted to members with 22 years of service, while partial benefits are available to those members with 4 to 22 years of service based on the ratio of years completed to years required (i.e., 22 years). Members with less than four years of service are entitled to a refund of their contribution only, with interest, for the period of employment.

Benefits are calculated based upon the member's highest three years of compensation. The average of these three years becomes the member's average final compensation. The base benefit is 66% of the member's average final compensation. Additional benefits are available to members who perform more than 22 years of service (2% for each additional year of service, up to a maximum of eight years). Survivor benefits are available to the beneficiary of a retired member according to the provisions of the benefit option chosen plus an additional benefit for each child. Survivor benefits are subject to a minimum benefit for those members who chose the basic benefit with a 50% surviving spouse benefit.

Active members, at least 55 years of age, with 22 or more years of service have the option to participate in the Deferred Retirement Option Program (DROP). The DROP is an arrangement whereby a member who is otherwise eligible to retire and commence benefits opts to continue to work. A member can elect a three, four or five year DROP period. By electing to participate in DROP, the member is signing a contract indicating the member will retire at the end of the selected DROP period. During the DROP period, the member's retirement benefit is frozen and a DROP benefit is credited to a DROP account established for the member. Assuming the member completes the DROP period, the DROP benefit is equal to 52% of the member's retirement benefit at the member's earliest date eligible and 100% if the member delays enrollment for 24 months. At the member's actual date of retirement, the member's DROP account will be distributed to the member in the form of a lump sum or rollover to an eligible plan.

Disability and Death Benefits

Disability coverage is broken down into two types, accidental and ordinary. Accidental disability is defined as permanent disability incurred in the line of duty, with benefits equivalent to the greater of 60% of the member's average final compensation or the member's service retirement benefit calculation amount. Ordinary disability occurs outside the call of duty and pays benefits equivalent to the greater of 50% of the member's average final compensation, for those with five or more years of service, or the member's service retirement benefit calculation amount, and 25% of average final compensation for those with less than five years of service.

Death benefits are similar to disability benefits. Benefits for accidental death are 50% of the average final compensation of the member plus an additional amount for each child, or the provisions for ordinary death. Ordinary death benefits consist of a pension equal to 40% of the average final compensation of the member plus an additional amount for each child, or a lump-sum distribution to the designated beneficiary equal to 50% of the previous year's earnable compensation of the member or equal to the amount of the member's total contributions plus interest.

Benefits are increased annually in accordance with Chapter 411.6 of the Code of Iowa which states a standard formula for the increases.

The surviving spouse or dependents of an active member who dies due to a traumatic personal injury incurred in the line of duty receives a \$100,000 lump-sum payment.

Contributions

Member contribution rates are set by state statute. In accordance with Chapter 411 of the Code of Iowa, the contribution rate was 9.40% of earnable compensation for the year ended June 30, 2016.

Employer contribution rates are based upon an actuarially determined normal contribution rate and set by state statute. The required actuarially determined contributions are calculated on the basis of the entry age normal method as adopted by the Board of Trustees as permitted under Chapter 411 of the Code of Iowa. The normal contribution rate is provided by state statute to be the actuarial liabilities of the plan less current plan assets, with such total divided by 1% of the actuarially determined present value of prospective future compensation of all members, further reduced by member contributions and state appropriations. Under the Code of Iowa the City's contribution rate cannot be less than 17.00% of earnable compensation. The contribution rate was 27.77% for the year ended June 30, 2016.

The City's contributions to MFPRSI for the year ended June 30, 2016 was \$1,429,516.

If approved by the state legislature, state appropriation may further reduce the City's contribution rate, but not below the minimum statutory contribution rate of 17.00% of earnable compensation. The State of lowa therefore is considered to be a nonemployer contributing entity in accordance with the provisions of the Governmental Accounting Standards Board Statement No. 67, *Financial Reporting for Pension Plans* (GASB 67).

There were no state appropriations to MFPRSI during the fiscal year ended June 30, 2016.

Net Pension Liabilities, Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2016, the City reported a liability of \$8,729,543 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all MFPRSI participating employers. As of June 30, 2015, the City's proportion was 0.01858084% which was an increase of 0.00018616% from its proportions measured as of June 30, 2014.

For the year ended June 30, 2016 the City recognized pension expense of \$853,047. As of June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 234,652 656,828	\$ 14,918 —
Net difference between projected and actual earnings on investments	_	898,545
Changes in proportion and differences between City contributions and proportionate share of contributions	170,447	_
City contributions subsequent to the measurement date Total	1,429,516 \$ 2,491,443	<u> </u>

\$1,429,516 reported as deferred outflows of resources related to pensions resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,

2017	\$ (166,676)
2018	(166,676)
2019	(166,676)
2020	572,913
2021	<u>75,578</u>
Total	\$ 148,463

Actuarial Assumptions

The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Rate of inflation 3%

Salary increases 4.5% to 15.00%, including inflation

Investment rate of return 7.5%, net of investment expense, including inflation

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from July 1, 2002 to June 30, 2012.

Mortality rates were based on weighting equal to 1/12 of the 1971 GAM table and 11/12 of the 1994 GAM table with no projection of future mortality improvement.

The long-term expected rate of return on MFPRSI investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Al	location	Long-Term Expected Real Rate of Return
Core Plus Fixed Income	7.0%		3.8%
Emerging Markets Debt	3.0		6.5
Domestic Equities	12.5		6.0
Master Limited Partnerships (MLP)	5.0		8.5
International Equities	<u>12.5</u>		7.0
Core Investments		40.0%	
Tactical Asset Allocation		35.0	6.0
Private Equity		15.0	9.8
Private Noncore Real Estate	5.0%		9.3
Private Core Real Estate	5.0		6.8
Real Estate		<u>10.0</u>	
Total		<u>100.0</u> %	

Discount Rate

The discount rate used to measure the total pension liability was 7.5%. The projection of cash flows used to determine the discount rate assumed that contributions will be made at 9.40% of covered payroll and the City contributions will be made at rates equal to the difference between actuarially determined rates and the member rate. Based on those assumptions, MFPRSI's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on MFPRSI's investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following presents the City's proportionate share of the net pension liability calculated using the discount rate of 7.5%, as well as what the City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1% lower (6.5%) or 1% higher (8.5%) than the current rate.

	1% Decrease	Discount Rate	1% Increase
	(6.5%)	(7.5%)	(8.5%)
City's proportionate share of the net pension liability	\$ 15,198,394	\$ 8,729,543	\$ 3,354,684

MFPRSI's Fiduciary Net Position

Detailed information about MFPRSI's fiduciary net position is available in the separately issued MFPRSI financial report which is available on MFPRSI's website at www.mfprsi.org.

Payables to MFPRSI

As of June 30, 2016, the City reported no material amounts payable to the defined benefit pension plan for legally required employer contributions or for legally required employee contributions which had been withheld from employee wages but not yet remitted to MFPRSI.

(8) Other Postemployment Benefits (OPEB)

Plan Description

The City operates a single-employer health benefit plan which provides medical/prescription drug benefits for employees, retirees and their spouses. There are 161 active and 14 retired members in the plan. Retired participants must be age 55 or older at retirement.

The medical/prescription drug benefits are provided through a fully insured plan with Wellmark. Retirees under age 65 pay the same premium for the medical/prescription drug benefits as active employees, which results in an implicit rate subsidy and an OPEB liability.

Funding Policy

The contribution requirements of plan members are established and may be amended by the City. The City currently finances the retiree benefit plan on a pay-as-you-go basis.

Annual OPEB Cost and Net OPEB Obligation

The City's annual OPEB cost is calculated based on the annual required contribution (ARC) of the City, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

(8) Other Postemployment Benefits (OPEB)

The following table shows the components of the City's annual OPEB cost for the year ended June 30, 2016, the amount actually contributed to the plan and changes in the City's net OPEB obligation:

Annual required contribution	\$ 344,472
Interest on net OPEB obligation	31,100
Adjustment to annual required contribution	(166,705)
Ánnual OPEB Cost	208,867
Contributions made	(168,867)
Increase in Net OPEB Obligation	40,000
Net OPEB Obligation - Beginning of Year	 1,240,000
Net OPEB Obligation - End of Year	1,280,000

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end-of-year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2016.

For the year ended June 30, 2016, the City contributed \$168,867 to the medical plan.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation as of June 30, 2016 are summarized as follows:

Year Ended June 30,	Annual OPEB Cost				
2014	\$ 175,932	71.6%	\$ 1,200,000		
2015	197,873	79.8	1,240,000		
2016	208,867	80.8	1,280,000		

Funded Status and Funding Progress

As of July 1, 2014, the most recent actuarial valuation date for the period July 1, 2015 through June 30, 2016, the actuarial accrued liability was \$1,605,633 with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,605,633. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$12,277,000 and the ratio of the UAAL to covered payroll was 13.1%. As of June 30, 2016, there were no trust fund assets.

Actuarial Methods and Assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumption about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress for the retiree health plan, presented as required supplementary information in the section following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

(8) Other Postemployment Benefits (OPEB)

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2014 actuarial valuation date, the frozen entry age actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the City's funding policy. The projected annual medical trend rate is 6%. An inflation rate of 0% is assumed for the purpose of this computation.

Mortality rates are from the 94 Group Annuity Mortality Table projected to 2000, applied on a gender-specific basis. Annual retirement was assumed at the rate of retirement by attained age after becoming eligible to retire and continue health coverage and termination probabilities were assumed at a modest rate for active employees while no turnover was assumed after the benefit start date.

The UAAL is being amortized as a level percentage of projected payroll expense on a closed basis over 30 years.

(9) Compensated Absences

City employees accumulate vacation hours for subsequent use or for payment upon termination, retirement or death. Employees covered under the International Association of Firefighters contract are also eligible for compensation at normal retirement of accumulated sick leave in excess of 90 days, to a maximum payment of 60 days. Employees covered under the Marion Policeman's Protective Association contract are eligible for compensation at normal retirement of 50% of their sick leave accumulated, to a maximum of 60 days. For employees covered under the AFSCME contract, Marion Water Department employees and all other nonunion City employees, sick leave can be accumulated but is payable only when used. City employees may also accumulate compensatory hours for overtime worked to be used subsequently or paid out upon termination, retirement or death. The City's approximate maximum liability for earned compensated absences payable to employees, including related tax and fringe amounts, is as follows:

Type of Benefit	Amount 6-30-16
Primary Government	
Sick leave	\$ 961,531
Vacation and personal leave	1,552,177
Compensatory time	949,788
	\$ 3,463,496

The above liabilities have been computed based on rates of pay as of June 30, 2016.

(10) Conduit Debt

The City has issued a total of \$18,153,515 of industrial development revenue and health care facility revenue bonds under the provisions of Chapter 419 of the Code of Iowa, of which \$10,229,881 is outstanding as of June 30, 2016. The bonds and related interest are payable solely from revenue of applicable projects. Bond principal and interest do not constitute liabilities of the City.

(11) Employee Health Care Plan

The City self-funds for health insurance claims to a stop-loss insured amount of \$30,000 per participant and a 125% aggregate stop-loss amount based on the "pure premiums" amount multiplied by the number of single and family contracts covered during the contract year. The following is a summary of claims paid during the year and an estimate of the claims incurred, but not reported as of June 30, 2016:

	Primary Government	Discretely Presented Component Unit - Marion Water Department	Total
Claims paid during the year Estimated claims incurred but unpaid at	\$ 1,657,793	\$ 112,662	\$ 1,770,455
June 30, 2016	233,645	16,355	250,000

The City has chosen to establish a risk financing fund for risks associated with the employees' health insurance plan. The risk financing is accounted for as an internal service fund where assets are set aside for claim settlements. The cost of these benefits is charged to each department and fund based upon the number of employees whose salary is charged to the department and fund and the type of plan (single or family) chosen by the employee. Amounts charged are \$517 per month single or \$1,294 per month family which is an actuarially determined amount with a reasonable provision for future unexpected claims. Employees pay \$50 per month for single coverage and \$100 per month for family coverage. The amount charged will be adjusted over a reasonable period of time so that the internal service fund receipts and disbursements are approximately equal.

(12) Related Party Transactions

The Marion Water Department bills and collects for sewer, garbage and urban forestry services provided for the City of Marion to its residents. During the year ended June 30, 2016, the Marion Water Department collected and remitted to the City \$4,901,743 for sewer, \$1,723,486 for garbage service and \$350,075 for urban forest. Fees paid to the Water Department by the City during the year to pay for this service totaled \$111,320.

(13) Risk Management

The City is a member of the Iowa Communities Assurance Pool, as allowed by Chapter 670.7 of the Code of Iowa. The Iowa Communities Assurance Pool (Pool) is a local government risk-sharing pool whose 746 members include various governmental entities throughout the State of Iowa. The Pool was formed in August, 1986 for the purpose of managing and funding third-party liability claims against its members. The Pool provides coverage and protection in the following categories: general liability, automobile liability, automobile physical damage, public officials liability, police professional liability, property, inland marine and boiler/machinery. There have been no reductions in insurance coverage from prior years.

Each member's annual casualty contributions to the Pool fund current operations and provide capital. Annual casualty operating contributions are those amounts necessary to fund, on a cash basis, the Pool's general and administrative expenses, claims, claims expenses and reinsurance expenses estimated for the fiscal year, plus all or any portion of any deficiency in capital. Capital contributions are made during the first six years of membership and are maintained at a level determined by the Board not to exceed 300%.

The Pool also provides property coverage. Members who elect such coverage make annual operating contributions which are necessary to fund, on a cash basis, the Pool's general and administrative expenses, reinsurance premiums, losses and loss expenses for property risks estimated for the fiscal year, plus all or any portion of any deficiency in capital. Any year-end operating surplus is transferred to capital. Deficiencies in operations are offset by transfers from capital and, if insufficient, by the subsequent year's member contributions.

The City's property and casualty contributions to the risk pool are recorded as expenditures from its operating funds at the time of payment to the risk pool. The City's contributions to the Pool for the year ended June 30, 2016 were \$226,055.

The Pool uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. The Pool retains general, automobile, police professional and public officials' liability risks up to \$350,000 per claim. Claims exceeding \$350,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the City's risk-sharing certificate. Property and automobile physical damage risks are retained by the Pool up to \$250,000 each occurrence, each location. Property risks exceeding \$250,000 are reinsured through reinsurance and excess risk-sharing agreements up to the amount of risk-sharing protection provided by the City's risk-sharing certificate.

The Pool's intergovernmental contract with its members provides that in the event a casualty claim, property loss or series of claims or losses exceeds the amount of risk-sharing protection provided by the City's risk-sharing certificate, or in the event a casualty claim, property loss or series of claims or losses exhausts the Pool's funds and any excess risk-sharing recoveries, then payment of such claims or losses shall be the obligation of the respective individual member against whom the claim was made or loss was incurred.

The City does not report a liability for losses in excess of reinsurance or excess risk-sharing recoveries unless it is deemed probable such losses have occurred and the amount of such loss can be reasonably estimated. Accordingly, as of June 30, 2016, no liability has been recorded in the City's financial statements. As of June 30, 2016, settled claims have not exceeded the risk pool or reinsurance coverage since the Pool's inception.

(13) Risk Management

Members agree to continue membership in the Pool for a period of not less than one full year. After such period, a member who has given 60 days' prior written notice may withdraw from the Pool. Upon withdrawal, payments for all casualty claims and claims expenses become the sole responsibility of the withdrawing member, regardless of whether a claim was incurred or reported prior to the member's withdrawal. Upon withdrawal, a formula set forth in the Pool's intergovernmental contract with its members is applied to determine the amount (if any) to be refunded to the withdrawing member.

Iowa Municipalities Workers' Compensation Association

The City is a member of the Iowa Municipalities Workers' Compensation Association (Association). The Association is a local government risk-sharing pool whose approximately 500 members include various municipal and county governments throughout the State of Iowa. The Pool was formed in July, 1981 to formulate, develop and administer, on behalf of the member governments, a program of joint self-insurance to stabilize costs related to members' workers' compensation liabilities. Program components include claims management, member education and loss control services. There have been no reductions in insurance coverage from prior years.

Each member pays annual premiums determined by using applicable standard rates for the exposure to risk and applicable experience modification factors of the National Council on Compensation Insurance. Each member may be subject to additional premiums to pay its pro rata share of claims which exceeds the Association's resources available to pay such claims. A distribution to members may also be made if the Association has excess monies remaining after payment of claims and expenses.

The City's premium contributions to the Association are recorded as expenditures from its operating funds at the time of payment to the risk pool. Premiums paid to the Association for the year ended June 30, 2016 were \$112,004.

The Association uses reinsurance and excess risk-sharing agreements to reduce its exposure to large losses. Claims exceeding \$500,000 are reinsured in an amount not to exceed \$1,500,000 per occurrence.

Members may withdraw from the Association at any time provided they provide assets for settlement of all pending claims.

(14) Deficit Balances

The Special Revenue, Tax Increment Financing Fund had a deficit balance of \$97,615 as of June 30, 2016. The deficit balance was the result of various costs incurred prior to availability of funds. The deficit will be eliminated upon receipt of tax increment financing or transfers from other funds.

(15) Development Agreements

The City has entered into various development agreements to assist in certain urban renewal projects. The agreements require the City to rebate portions of the incremental property tax paid by the developer in exchange for the construction of buildings and certain improvements by the developers. Certain agreements also require the developer to certify specific employment requirements are met.

The total amount rebated during the year ended June 30, 2016 was \$688,757. The estimated outstanding balance of the agreements as of June 30, 2016 was \$4,757,867.

These agreements are not a general obligation of the City. However, the agreements are subject to the constitutional debt limitation of the City, except for \$4,757,867 which requires an annual appropriation by the City Council.

(16) Commitments and Contingencies

Risk Management

The City is exposed to various risks of loss related to torts; theft, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are covered by the purchase of commercial insurance. See Note 13. Settled claims from these risks have not exceeded commercial insurance coverage in the past three fiscal years.

Component Unit

The Water Department provides single premium health insurance coverage for a period not to exceed two years for retirees who qualify under an early separation agreement.

(17) Construction Commitments and Subsequent Events

As of June 30, 2016, the City had entered into several construction contracts and agreements to purchase equipment and supplies totaling approximately \$9.9 million for various street projects, equipment and supplies.

As of June 30, 2016, the City had committed up to \$6.5 million including \$2 million in local option sales tax funding, in partnership with the Cedar Rapids Metro Area YMCA to building a community fitness center in Marion. The City has also pledged a total of \$1.25 million in financial support for a proposed baseball and softball complex.

Management has evaluated subsequent events through January 6, 2017, the date which the financial statements were available to be issued.

Subsequent to June 30, 2016, the City entered into the following transactions:

Approved several agreements to purchase equipment and construct capital improvements. These agreements totaled approximately \$1.6 million.

(18) New Accounting Pronouncement

The City of Marion adopted fair value guidance as set forth in Governmental Accounting Standards Board Statement No. 72, Fair Value Measurement and Application. The Statement sets forth guidance for determining and disclosing fair value of assets and liabilities reported in the financial statements. Adoption did not have significant impact on amounts reported or disclosed.

(19) Prior Period Restatement

During the year ended June 30, 2016, management determined that fund balances were incorrect due to capital assets being incorrectly classified when placed into service. As of June 30, 2015, capital assets were overstated by \$22,037,103 in the governmental activities and understated by \$22,073,589 in the business-type activities. This correction had the following effect on the net position as of June 30, 2015.

				Busine	ss-Type Activiti	ies - Properieta	ry Funds

Notes to Required Supplementary Information - Budgetary Reporting

Year Ended June 30, 2016

The budgetary comparison is presented as required supplementary information in accordance with Government Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major special revenue fund.

In accordance with the Code of Iowa, the City Council annually adopts a budget on the cash basis following required public notice and hearing for all funds, except for the internal service, trust fund and component units. The annual budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control is based upon nine major classes of disbursements known as functions, not by fund. These nine functions are: public safety, public works, health and social services, culture and recreation, community and economic development, general government, debt service, capital projects and business-type. Function disbursements required to be budgeted include disbursements for the General Fund, Special Revenue Funds, Debt Service Fund, Capital Projects Funds, Permanent Fund and Enterprise Funds. Although the budget document presents function disbursements by fund, the legal level of control is at the aggregated function level, not by fund. During the year, one budget amendment increased budgeted disbursements by \$10,677,000. This budget amendment is reflected in the final budgeted amounts.

During the year ended June 30, 2016, disbursements did not exceed the amounts budgeted.

Schedule of Proportionate Share of the Net Pension Liability — lowa Public Employees' Retirement System

Last Two Years*

	2016	2015
City's proportion of the net pension liability	0.0988942	0.0986825%
City's proportionate share of the net pension liability	\$4,885,852	\$3,913,656
City's covered-employee payroll	\$6,778,000	\$6,458,000
City's proportionate share of the net pension liability as a percentage of its covered-employee payroll	72.08%	60.60%
Plan fiduciary net position as a percentage of the total pension liability	85.19%	87.61%

^{*} The amounts presented for each fiscal year were determined as of June 30.

Year Ended June 30, 2016

Changes of Benefit Terms

Legislation passed in 2010 modified benefit terms for current regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3% per year measured from the member's first unreduced retirement age to a 6% reduction for each year of retirement before age 65.

In 2008, legislative action transferred four groups – emergency medical service providers, county jailers, county attorney investigators and National Guard installation security officers – from regular membership to the protection occupation group for future service only.

Changes of Assumptions

The 2014 valuation implemented the following refinements as a result of a quadrennial experience study:

- Decreased the inflation assumption from 3.25% to 3.00%.
- Decreased the assumed rate of interest on member accounts from 4.00% to 3.75% per year.
- Adjusted male mortality rates for retirees in the regular membership group.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration.

The 2007 valuation adjusted the application of the entry age normal cost method to better match projected contributions to the projected salary stream in the future years. It also included in the calculation of the UAL amortization payments the one-year lag between the valuation date and the effective date of the annual actuarial contribution rate.

Schedule of Proportionate Share of the Net Pension Liability — Municipal Fire and Police Retirement System of Iowa

Last Two Years*

	2016	2015
City's proportion of the net pension liability	1.858084%	1.839468%

Year Ended June 30, 2016

Changes of Benefit Terms

There were no significant changes of benefit terms.

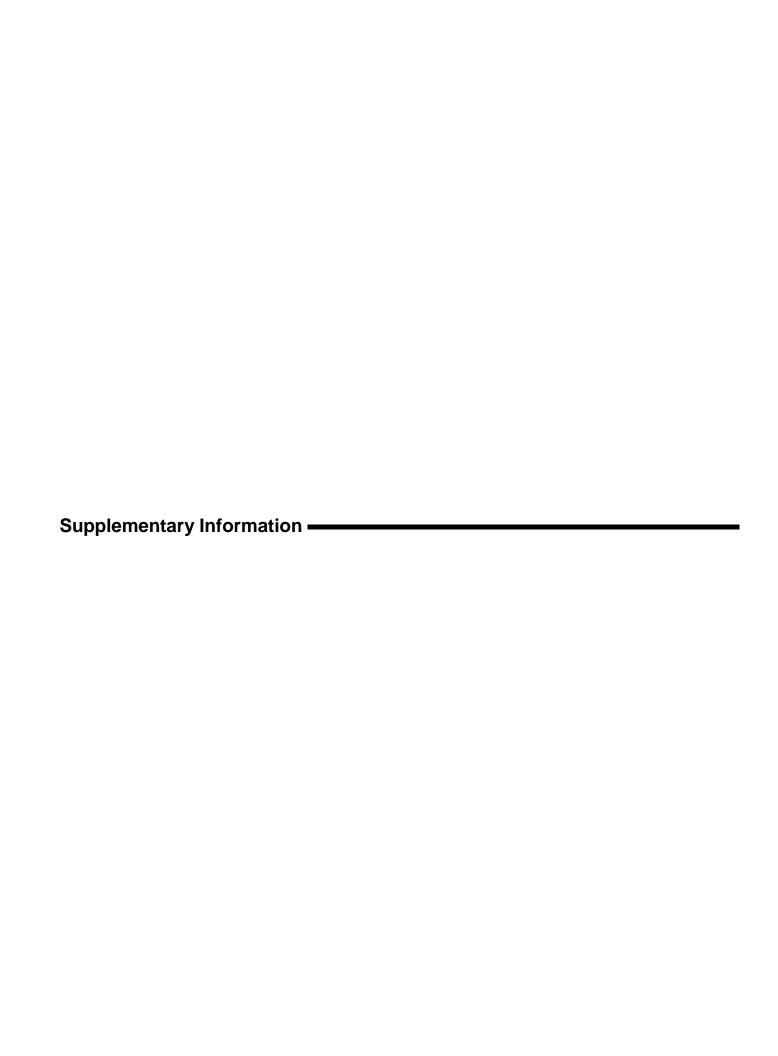

Changes of Assumptions

Effective July 1, 2014, two additional steps were taken to phase in the 1994 Group Annuity Mortality Table for post-retirement mortality. The two additional steps result in a weighting of 2/12 of the 1971 Group Annuity Mortality Table and 10/12 of the 1994 Group Annuity Mortality Table.

Basis of Presentation

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal award activity of the City of Marion under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2, U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City of Marion, it is not intended to and does not present the financial position, changes in financial position or cash flows of the City of Marion.

Summary of Significant Accounting Policies

Expenditures reported in the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The City of Marion has elected not to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

Subrecipients

There were no amounts provided to subrecipients from the City's federal award programs.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Honorable Mayor and Members of the City Council City of Marion, Iowa

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund and the aggregate remaining fund information of the City of Marion, Iowa, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, as listed in the table of contents, and have issued our report thereon dated January 6, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Marion's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Marion's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Marion's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and another deficiency we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility a material misstatement of the City of Marion's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiencies in internal control described in Part II of the accompanying schedule of findings and questioned costs as items 16-II-R-1, 16-II-R-2 and 16-II-R-3 to be material weaknesses.

To the Honorable Mayor and Members of the City Council City of Marion, Iowa Page 2

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in Part II of the accompanying schedule of findings and questioned costs as items 16-II-R-4 and 16-II-R-5 to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Marion's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance or other matters which are described in Part IV of the accompanying schedule of findings and questioned costs.

Comments involving statutory and other legal matters about the City's operations for the year ended June 30, 2016 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the City. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

City of Marion's Responses to Findings

The City of Marion's responses to findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City of Marion's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for the Major Federal Program and on Internal Control Over Compliance Required by the Uniform Guidance

To the Honorable Mayor and Members of the City Council City of Marion, Iowa

Report on Compliance for the Major Federal Program

We have audited the City of Marion's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on its major federal program for the year ended June 30, 2016. The City of Marion's major federal program is identified in Part I of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal program.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for the City of Marion's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City of Marion's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination on the City of Marion's compliance with those requirements.

Opinion on the Major Federal Program

In our opinion, the City of Marion complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2016.

To the Honorable Mayor and Members of the City Council City of Marion, Iowa Page 2

Report on Internal Control Over Compliance

The management of the City of Marion is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City of Marion's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on compliance for each major program and to test and report on internal control over compliance in accordance with the Uniform Guidance but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Marion's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control over compliance, as described in Part III of the accompanying schedule of findings and questioned costs as item 16-III-IC-1 that we consider to be material weaknesses.

The City of Marion's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The City of Marion's response was not subjected to the auditing procedures applied in the audit of compliance, and accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance, a public record by law, is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Findings and Questioned Costs =

Year Ended June 30, 2016

Part II: Findings Related to the Financial Statements

Instances of Noncompliance

There were no reported instances of noncompliance.

Internal Control Deficiencies

16-II-R-1 Segregation of Duties

<u>Prior Year Finding and Recommendation</u> - One important aspect of the internal control structure is the segregation of duties among employees to prevent an individual employee from handling duties which are incompatible. We noted that incompatible duties are being performed by the same person. We realize that with a limited number of employees, segregation of duties is difficult. However, the City should review its control procedures to obtain the maximum internal control possible under the circumstances and to assure that appropriate controls are in place or implemented. The potential effect of this material weakness is an error occurring or fraudulent activity being committed and not detected.

Current Year Finding - We found that the same condition still exists.

<u>Auditor's Recommendation</u> - We reiterate our prior year recommendation.

<u>City's Response</u> - The City is aware of the lack of segregation of duties and has considered alternatives to improve this situation.

<u>Auditor's Conclusion</u> - Response accepted.

16-II-R-2 Financial Statement Preparation

<u>Prior Year Finding and Recommendation</u> - The City does not have a system of internal controls that fully prepares financial statements and disclosures that are fairly presented in conformity with accounting principles generally accepted in the United States of America. As is inherent in many entities of this size, the City has management and employees who, while knowledgeable and skillful, do not have the time to maintain the current knowledge and expertise to fully prepare the financial statements and the related disclosures. The potential effect of this material weakness is financial statements and related disclosures may not be prepared in accordance with generally accepted accounting principles. We recommend that City staff obtain additional knowledge through reading relevant accounting literature and attending local professional education courses.

Current Year Finding - We found that the same condition still exists.

Auditor's Recommendation - We reiterate our prior year recommendation.

<u>City's Response</u> - The City will consider obtaining additional knowledge where cost effective but will continue to rely on its audit firm for assistance with drafting the financial statements and disclosures.

<u>Auditor's Conclusion</u> - Response accepted.

Schedule of Findings and Questioned Costs •

Year Ended June 30, 2016

16-II-R-3 Asset Capitalization

<u>Prior Year Finding and Recommendation</u> - The City does not have a system of internal controls that can identify assets that should be capitalized in accordance with the City's policy. The potential effect of this material weakness is assets not being capitalized. The City should review expenditures/expenses to ensure that assets over the capitalization threshold are properly recorded.

Current Year Finding - We found the same condition still exists.

<u>Auditor's Recommendation</u> - We reiterate our prior year recommendation.

<u>City's Response</u> - The City is reviewing its capitalization procedures to better identify when assets can be capitalized.

Auditor's Conclusion - Response accepted.

16-II-R-4 Collected Rates

<u>Auditor's Finding</u> - During our testing of utility billings, specifically garbage, we noted an elderly resident was charged a preferential rate which is not allowable under Section 388.6 of the Code of Iowa. We also noted preferential rates for low-income and totally disabled residents which is not allowable under Section 388.6 of the Code of Iowa.

<u>Auditor's Recommendation</u> - We recommend that the City revise its rates to eliminate discriminatory rates. The potential effect of this significant deficiency is violation of Section 388.6 of the Code of Iowa.

<u>City's Response</u> - The City has eliminated the elderly rate discount effective January 1, 2017 and the City is waiting for the League of Cities' review of the low-income and totally disabled reduced rates before they eliminate this practice, but they will consider eliminating these rates as well to not be in violation of State Code.

Auditor's Conclusion - Response accepted.

16-II-R-5 Road Use Tax Funds

<u>Auditor's Finding</u> - During our testing, we noted exercise equipment was purchased with road use tax funds. Section 312.6 of the Iowa Code, limits road use tax funds to be used only for purposes relating to the construction, maintenance and supervision of public streets. The potential effect of this significant deficiency is possible misuse of road use tax funds.

<u>Auditor's Recommendation</u> - The City should review all expenditures from the Road Use Tax Fund before paid to determine that the expenditure is allowed under the Iowa Code.

<u>City's Response</u> - The City will review all expenditures from the Road Use Tax Fund before they are paid to determine that they are allowed under the Iowa Code.

<u>Auditor's Conclusion</u> - Response accepted.

Schedule of Findings and Questioned Costs

Year Ended June 30, 2016

Part III: Findings and Questioned Costs for Federal Awards

Instances of Noncompliance

There were no reported instances of noncompliance.

Internal Control Deficiencies

All programs displayed on the schedule of expenditures of federal awards.

16-III-IC-1 Segregation of Duties Over Federal Revenue and Expenditures

(2016-001) Adequate control procedures through the segregation of employee duties is difficult to achieve due to the limited number of staff administering grants and performing accounting functions. See finding 16-II-R-1 for additional information.

Part IV: Findings Related to Statutory Reporting

- **16-IV-A** Certified Budget Disbursements during the year ended June 30, 2016 did not exceed the amounts in the amended budget.
- **16-IV-B** Questionable Expenditures Certain expenditures we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979 since the public benefits to be derived have not been clearly documented were noted. These expenditures are detailed as follows:

Paid to	Purpose	Amount
Wal-Mart	Training event	\$ 197
Hy-Vee	Snacks and refreshments for meeting	38
Hy-Vee	Strategic planning meeting and a funeral plant	198
VISA	Staff meeting	17
VISA	Health meeting	78
Various restaurants	Meal expenses of the City Manager and	
	department heads	188

According to an Attorney General's opinion, it is possible for such expenditures to meet the test of serving a public purpose under certain circumstances, although such items will certainly be subject to a deserved close scrutiny. The line to be drawn between a proper and an improper purpose is very thin.

<u>Auditor's Recommendation</u> - The City Council should determine and document the public purpose served by these expenditures before authorizing any further payments.

<u>City's Response</u> - The City Council has reviewed these types of expenditures and feels that they do serve a public purpose and have passed policies addressing these for staff to follow.

Auditor's Conclusion - Response accepted.

Schedule of Findings and Questioned Costs •

Year Ended June 30, 2016

- **16-IV-C Travel Expense** No expenditures of City money for travel expenses of spouses of City officials or employees were noted.
- **16-IV-D Business Transactions** No business transactions were noted between the City and City officials or employees.
- **16-IV-E Bond Coverage** Surety bond coverage of City officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to ensure the coverage is adequate for current operations.
- **16-IV-F** City Council Minutes No transactions were found that we believe should have been approved in the City Council minutes but were not.
- **16-IV-G Deposits and Investments** We noted no instances of noncompliance with the deposit and investment provisions of Chapters 12B and 12C of the Code of Iowa and the City's investment policy.
- **16-IV-H Tax Increment Financing** The City's tax increment financing (TIF) certification required by Chapter 403 of the Code of Iowa and filed in November, 2015 certified only debt payments required in fiscal year 2016 rather than the actual debt incurred. Certifications should certify actual indebtedness.

<u>Auditor's Recommendation</u> - The City should follow lowa Code Chapter 403.19 in completing the annual TIF certification to the County Auditor.

<u>City's Response</u> - Because many of our TIF parcels are based on rebate agreements and not a fixed debt amount, it is difficult to calculate future rebate amounts with changing assessed valuation numbers and tax levies; therefore, when filing the report, we ask for enough revenue to satisfy the following year's known debt. The filings have been discussed with the County and they feel the current method is acceptable.

<u>Auditor's Conclusion</u> - Response accepted.

Annual Urban Renewal Report - The annual urban renewal report was properly approved and certified to the lowa Department of Management on or before December 1. However, during our testing, we noted that the annual urban renewal report ending cash did not reconcile to the audit report and TIF debt outstanding was not reported correctly.

<u>Auditor's Recommendation</u> - The City should reconcile the data back to the audit report. The annual urban renewal report should be reviewed to ensure that errors are caught before filing.

<u>City's Response</u> - The City will review procedures to ensure that the ending cash balance of the annual urban renewal report reconciles to the audit report and that outstanding TIF debt is reported correctly.

Auditor's Conclusion - Response accepted.

Schedule of Findings and Questioned Costs —

Year Ended June 30, 2016

16-IV-J Deficit Fund Balance - The City reported a \$97,615 deficit Tax Increment Financing Fund balance as of June 30, 2016.

<u>Auditor's Recommendation</u> - The City should continue to monitor this fund and investigate alternatives to eliminate this deficit.

<u>City's Response</u> - We will continue to monitor this fund and are working on ways to eliminate this deficit.

Auditor's Conclusion - Response accepted.
