

BACKGROUND:

Staff is presenting a report to Council and the public on the state of City's finances. This report provides the following information:

- 1. A snapshot of the City's fund balances as of March 31, 2024, as well as the fiscal year-to-date change in fund balances.
- 2. A review of the Operating Funds revenue and expenses through the third quarter of the fiscal year (75% of the year as of March 31, 2024).
 - a. General Fund
 - b. Road Use Fund
 - c. Sanitary Sewer Fund
 - d. Solid Waste Fund
 - e. Urban Forest Fund
 - f. Stormwater Management Fund
- 3. An update on the FY 24 Capital Improvement Program as of March 31, 2024.

For the quarterly report, no quarter-end accruals are reported. Except at fiscal year-end when accruals are recorded in accordance with accounting standards, revenue is essentially reported when cash is received, and expenditures reported when cash payments are made. Many revenue and expenditure transactions do not occur at uniform times or at equal intervals throughout the year. Consequently, although transactions through the third quarter represent 75 percent of the fiscal year, not all line items will be at 75 percent as of the end of the quarter.

Making sense of the information presented herein requires consideration of the cash flow factors of major revenues and expenditures. For instance, while expenditure outflows for normal operations tend to be relatively even, the cash flow timing of capital expenditures and major revenues such as property taxes are not distributed evenly.

FINANCIAL SUMMARY:

The intent of this financial summary is to provide an understanding of the changes in fund balance. Attached for review are the following summary schedules through the end of the quarter:

- Schedule of General Fund Revenues by Type
- Schedule of General Fund Expenditures by Program
- Schedule of General Fund Expenditures by Classification
- Schedule of Road Use Fund Revenues by Type
- Schedule of Road Use Fund Expenditures by Classification
- Schedule of Sanitary Sewer Revenues by Type
- Schedule of Sanitary Sewer Expenses by Classification
- Schedule of Solid Waste Revenues by Type
- Schedule of Solid Waste Expenses by Classification

- Schedule of Urban Forest Revenues by Type
- Schedule of Urban Forest Expenses by Classification
- Schedule of Stormwater Management Revenues by Type
- Schedule of Stormwater Management Expenses by Classification
- FY 2024 Capital Improvement Program

The City's overall fund balance has increased \$12.16 million from the beginning of the fiscal year from \$90.11 million to \$102.3 million at March 31, 2024. The overall fund balance has decreased from the prior quarter of \$109.30. These fluctuations are a result of \$15 million bonded (Sanitary Sewer and Solid Waste Revenue Bonds) for the Public Services facility and the timing of property tax revenues. The overall \$12.16 million change is accounted for as follows:

| Fund Type | Increase / (Decrease) |
|--|-----------------------|
| General Funds | (\$2,385,854) |
| Special Revenue Funds | \$2,287,809 |
| | |
| Debt Service Funds | \$2,755,002 |
| Capital Project Funds | (\$2,589,203) |
| Permanent Funds | \$5,220 |
| Enterprise Funds (Sewer, Communications, Solid | \$12,032,345 |
| Waste, Urban Forest, Stormwater) | |
| Internal Service Funds | \$57,451 |
| Total | \$12,162,770 |

The remainder of the financial review will discuss the operating funds.

General Fund

As shown in the attached charts, General Fund revenues totaled \$18.29 million (62.38% of budget) at the end of the third fiscal quarter. These results reflect an incline in revenue from the prior year where revenues totaled \$16.53 million (57.58% of the year's revenues). Increases over the prior year include interest earned, automated traffic enforcement fines, and the annual increase from the Employee Benefits Levy. Expenditures totaled \$21.97 million (70.16% of budget) as of March 31, 2024, an increase compared to the prior year of \$20.70 million (74.28% of the year's expenditures). The largest increase is realized in salaries and benefits as union wage adjustments went into effect at July 1 and non-bargaining wage adjustments on October 1 as a result of the compensation study.

Revenues

Following is a discussion of the three largest General Fund revenue sources: property tax, transfers in, franchise fees. Together, these three revenues account for approximately 89% of the General Fund's revenue budget. Also, notable this quarter, Use of Money and Property, Misc. Revenues, and Sale of Capital Assets.

- Property Tax: The General Fund's largest revenue source, property tax, has \$9.45 million revenue recorded as of March 31, 2024 (57.56% of the \$16.42 million budget). This is following the prior year receipt pattern –three quarters revenues received in FY 2022-2023, the City had received 58.56% of the budgeted amount or \$9.61 million.
- Transfers In: The second largest revenue source for the General Fund is transfers in. At the end of March 31, 2024, \$3.70 million was recorded whereas the prior year was \$3.16 million at this time. The largest increase is from the employee benefits levy. Recurring operational transfers are recorded at November 30 and May 31.
- Franchise Fees: The City's collection of franchise fees on cable, electric, and gas account for the third largest source of revenue in the General Fund. Collections through the third quarter amounted to \$1.75 million or 76.69% of the budgeted total. Alliant Energy, the largest contributing utility, submits collections to the City of Marion quarterly. Mediacom and MidAmerican Energy also pay quarterly, whereas ImOn and Linn County REC pay monthly. The Gas/Electric Franchise Fee increase from 4% to 5% went into effect in late August. Overall franchise fee revenue is up \$20,432 in comparison to the prior year. Franchise Fee revenue varies based on weather conditions.
- Use of Money and Property: Revenue at the end of the third quarter exceeds the budgeted amount by \$359K (\$699K received on a budget of \$521K). Marion earned an average rate of 5.44% (Budget assumption: 3.5%) in interest at Farmer's State Bank this quarter, accounting for most of the increase.
- Misc. Revenues: Also, notable this quarter an increase in Miscellaneous Revenues. The City is up \$622,582 from last year and trending 351% of budget. Of the \$766,521 in revenue, \$470K is attributed to Traffic Fines from Automated Traffic Enforcement (ATE) cameras. The Misc Revenue subcategory adds \$154K and includes items such as insurance claim reimbursements, contributions from the MPL Foundation, and patronage dividends from the Linn Co-op. Court Penalties/Fines Revenues from the Linn County Clerk of Court for citations adds \$55K and is down \$10K from the prior year of \$65K.
- Sale of Capital Assets: \$221K in Sale of Capital Assets has been received so far this fiscal year for the trade-ins of vehicle and equipment that were up for replacement on the asset replacement schedule. At 850% of the budgeted amount of \$26K, this is an increase of \$186K from this time last fiscal year.

Expenditures

The General Fund's expenditures total \$21.97 million at March 31 (70.16% of the \$31.32 million budget). In comparison, the prior year expenditures totaled \$20.70 million (74.28% of the \$27.87 million budget) through the end of the second quarter.

Following is a discussion of General Fund Expenditures by type:

- Salaries: As a service organization, Salaries account for over 50% of General Fund expenditures. Considerations: Longevity is paid in November. Annual pay increases occur at July 1 for bargaining groups. Non-bargaining groups received a pay adjustment due to Compensation Study implementation at October 1. Part-time employees will receive an increase at April 1, 2024. Seasonal staff are hired over the summer for parks and recreation programs, the pool, and mowing. Due to the construction season, some departments (Engineering, Building) tend to realize overtime costs over the summer. Departments without these factors expect to be at 75% at the end of the third quarter. Overall, the General Fund is at \$11.53 million (71.80% of the \$16.06 million budget) in salaries as of March 31, 2024. Part-Time pay is currently at 61% and we expect that to pick up as we hire seasonal employees and transition to Spring/Summer. Overtime Pay is trending over at 82% of budget. Departments currently exceeding 75% of their overtime budgets include: Fire (143%), Engineering (90%), and Parks (95%).
- Employee Benefits/Costs: Employee Benefits and Costs are the second largest expenditure for the General Fund, accounting for over 20% of the total. Employee Benefits and costs include payroll taxes, worker's compensation, unemployment, retirement (IPERS, MFPRSI, ICMA), allowances (uniform, car, tool), education stipend, life insurance, and health insurance. Many of the costs in this category are driven by salary (taxes and retirement). At March 31, 2024 Employee Benefits and Costs were at \$4.72 million (71.20% of budget) as compared to the prior years' number \$4.27 million (75.65% of actual). Worker's Compensation continues to trend over budget at 233% (\$180,101) of budget of \$77,307. This is largely due to a single unexpected Chapter 411 claim.
- Staff Development: Staff Development expenses include tuition reimbursement, dues/memberships, subscriptions/education materials, training/conference registrations, travel expenditures, and health screenings. At March 31, 2024, expenditures totaled \$294,426 (51.48% of the \$571,873 budget). This number is up from the prior year which was \$266,469. The largest increase in this area comes from the Police Department (\$47,072 year to date compared to \$25,573 the prior year) driven by sending new officers to the Law Enforcement Academy and a professionalism and motivation training.

- Repair/Maintenance/Utilities: Repairs, Maintenance, and Utilities include Building & Equipment maintenance and repairs as well as utility expenditures. The third fiscal quarter is trending higher than the prior year in this category at \$656,356 (78.37% of \$837,550 budget) versus \$622,513 (74.22% of \$838,781 actual). Trending over 75% include Building Maintenance/Repairs (96%) and Vehicle Maintenance/Repairs (130%) driven primarily by police (Water heater replacement, vehicle claims) and fire (engine repairs).
- Contractual Services: Contractual services is a broad category covering all contracts for service. Total expenditures in this category are trending on budget at 73.18%.
- Commodities: Commodities are consumable items such as fuel, postage, and office, janitorial, and medical supplies. At the end of the third quarter, Commodities were at 61.24% of budget (\$691,956 actual/\$1,129,940 budget). FY2022-2023 reflected commodities at \$612,780 (69.77% of total expenditure).
- Capital Outlay: Capital Outlay is used for purchases of Equipment, Furniture, Vehicles, and Library Materials as well as Software, and Hardware. Through March 31, Capital Outlays are at 55.10% of budget. Software is currently at 30% of its \$453,393 budget. \$300,000 of that budget is attributable to the Records Management System at the Police Department.
- Transfers Out: Transfers Out of the General Fund amounted to \$507,369 at the end of the second and third quarters – exactly 50% of the budgeted amount since these operating transfers are made twice in the fiscal year, the second and fourth quarters.

Special Revenue - Road Use Fund

As shown in the attached charts, Road Use Tax fund revenue totaled \$4.83 million (76.70% of budget) while expenditures totaled \$3.89 million (46.15% of budget) as of March 31, 2024. Salaries and Benefits are trending under budget (66.49%) as the Public Services Director position is vacant and the department works through a reorganization. Trending over budget in Contractual Services (99%) due to the interim Public Services Director contract, concrete crushing at Hanna Park and emergency repairs to the traffic signal at East Post Road and Highway 100 (insurance claim).

Enterprise - Sanitary Sewer Fund

As shown in the attached charts, Sanitary Sewer Fund revenues totaled \$5.78 million (80.65% of budget) while expenses totaled \$4.20 million (64.11% of budget) as of March 31, 2024. Revenues are trending above budget due to an increase in watering during the dry summer months. Excluding transfers out, expenses are at 69% of budget. The Public Services Facility financing is the main driver for transfers out being under budget. Overall, the contract with the Solid Waste Agency (at 70% of budget) and the department reorganization are the driving factors contributing to the expense trend.

Enterprise - Solid Waste Fund

As shown in the attached charts, Solid Waste revenues totaled \$2.53 million (77.20% of budget) while expenses totaled \$2.11 million (42.50% of budget) as of March 31, 2024. Excluding transfers out, the expenses are on trend at 74.7%. Transfers Out are trending below budget (10%) due to the timing of the replacement of the fleet.

Enterprise - Urban Forest Fund

As shown in the attached charts, Urban Forest revenues totaled \$644.40K (76.05% of budget) while expenses totaled \$536.87K (72.81% of budget) as of March 31, 2024. Urban Forest Utility Fee increased this fiscal year from \$3.00 to \$3.50, which is reflected in the \$89K increase in Charges for Services. Many lines are exceeding 75% of budget at March 31 (as expected). Repair/Maint./Utilities at 106% due to repairs to a 2021 John Deere 1585. Contractual Services exceeds 100% due to the grant administration contract and the billing contract with water (improperly budgeted in transfers). Capital Outlay is at 109% due to a mower purchase and the Reforestation Plan.

Enterprise - Stormwater Management Fund

As shown in the attached charts, Stormwater Management revenues totaled \$951K (66.18% of budget) while expenses totaled \$880K (54.80% of budget) as of March 31, 2024. As Stormwater billing shifted to Marion Water Department in the second quarter, we see revenue starting to level out in quarter 3 – \$933K prior YTD. The budget included a rate increase in anticipation of a Stormwater Revenue Bond for the Public Services Maintenance Facility. The bond has not moved forward as of yet nor has a rate increase. Salaries are trending over budget at 77% as a result of a payout.

Capital Improvement Program

As shown in the attached status report, actual Capital Improvement Program expenditures totaled 43% of the budget at March 31. When factoring in outstanding purchase order obligations through the end of the fiscal year, the total is 65% of budget. The difference from budget is accounted for in delays on projects that will be completed in FY 25, notably Alburnett Road Extension, Central Plaza, Public Services Facility, and the Solid Waste Fleet Acquisition.

FISCAL IMPACT

As of the end of the third quarter, the General Fund is in good health overall. Staff has prepared a budget amendment that will come forward in May to adjust functions for fluctuations that have occurred since budget adoption. Increased expenses are either carryovers from the prior year or will be offset by equipment reserves or revenues via interest revenue, ATE revenue, asset sales, and insurance proceeds.
